

PANJAB UNIVERSITY, CHANDIGARH

No.: R02/19/11796-11959

Date: June 24, 2019

Circular

As you are aware, the monsoon season is fast approaching.

In this regard, it has been observed that a lot of dry leaves, waste paper pieces, polythene bags, etc. are laying accumulated at roofs of University Buildings. Once the rain starts, these waste material will get blocked at the sewerage line through the drainage and the water is accumulated at various points. Water logging leads to breeding of mosquitoes, flies, etc. and outbreak of consequential diseases, like dengue, chikungunya, etc.

In view of the above, all Chairpersons/Directors/Coordinators of Teaching Departments and Heads of all Non-Teaching Departments of the University are requested to ensure that rooftops of their respective buildings are properly got cleaned and cleared of any such material before the onset of monsoon.
